### Fund Description

Areca Sicav SIF - Value Discovery Fund seeks to achieve superior, risk-adjusted performance over the long term through investments in dislocated relative value investment opportunities. The core part of the fund invests in specialized hedge fund strategies with asymmetric return profiles such as Relative Value Credit, Event Driven and Distressed Credit. The other part of the fund invests in liquid relative value fixed income and global macro strategies to take advantage from global macro dislocations, market momentum and liquidity flow. The objectives of the Value Discovery Fund are a return net of fees between 8% - 12% p.a. over a three to five years investment horizon and a low volatility of <5%. The fund aims at low correlation to equities, fixed income and commodities.
